Alu-Lift®

The ultimate in lightweight construction for ease of portability. These gantries are ideal when you require constant assembly or disassembly, such as by site personnel or for a remote/difficult location.

A range of over 30 models allow for capacities up to 2000kg and spans up to 6000mm.

The **Alu-Lift®** is simple to set up and breakdown and has features which minimise the space required for storage and transportation. Each system comes complete with a load trolley for a simple all in one solution.

For applications where the standard product does not quite fit the mark, we are committed to being able to review clients' needs in greater detail, developing custom solutions to meet the exact requirements.

Features:

- Capacities up to 2000kg.
- Beam lengths up to 6000mm.
- Lightweight and easy to assemble.
- Carry handles and folding legs makes transportation easier.
- 360° swivel locking castors as standard.
- Load trolley included as standard.

Optional Accessories:

- Winch Kit.
- Securing chains reduce the risk of losing pins during assembly and disassembly.
- Levelling feet - for secure footing on uneven ground.
- Festoon kits (for use with electric hoists).

STANDARD MODELS

Capacity	Beam Height	Span (M)						
		2000mm	2500mm	3000mm	3500mm	4500mm	5500mm	6000mm
